EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney David Liechty on May 18, 2004.

The application has been amended as follows: cancel claim 13.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Applicants have amended the instant claims wherein the originally claimed optional catalyst component (B) is now limited to "an aluminoxane". Tani et al. (JP 10-231317) teaches a polymerization process in the presence of the catalyst composition comprising the tridentate macrocyclic ligand containing transition metal complex and the boron containing activator, Tani expressly teaches that the activator should not be aluminoxane. Since Tani teaches away from the aluminoxane activator of the instant claims, the instant claims are not obvious variation of Tani, and, thus, are in the condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
